Gender-balance checklist
For STEM MOOC creators

Please have a look at the FOSTWOM Gender-Balance Checklist for STEM MOOCs Creators

Feel free to contribute by adding your suggestions. We will frequently check the document and implement them one by one, when possible. This link will remain the same for the next versions of the toolkit: inside the document you'll always find a reference to version and release date. A printable version of the checklists will be available soon on the same page.
